版畫用刻紙板

SNZ Dry Point Etching Sheet

使用尖硬工具或刮棒於有光澤的紙面作畫。線條愈粗大，則印畫效果愈佳。完成刮畫後，用膠輾塗上板畫顏料，同時應用板機印製。因此產品為紙類製成品，約可以印製50份作品。由於不需使用刀具，特別適合小學生使用。

Create your picture on the shiny side of the Dry Point Paper.

Use a sharp object, such as etching scriber or Dry Point.

Do not cut it into the other side of the paper.

However, the deeper the contour, the better the print result. Once finished Creating your picture, use a rubber roller to cover the paper with etching or Lino ink and use a Lino or etching press to make copies of your print. As the Dry Point is paper based, about 50 copies can be made before the card disintegrates.
